Dear Sir / Madam,

Are you interested in the **electrical transformation** of vehicles?

Does having an unforgettable experience in the beautiful city of Istanbul sound interesting to you?

If yes, Istanbul Bogazici is preparing the BEST course which will be an unforgettable week for you.

Who are We?

BEST, Board of European Students of Technology is a constantly growing non-profit and non-political organization. Since 1989 we have provided communication, cooperation, and exchange possibilities for students all over Europe.

86 Local BEST Groups (LBGs) in 30 countries are creating a growing, well-organized, powerful, young, and innovative student network.

Our priority is to offer high-quality services for students all over Europe. Thus, we manage to bring all the partners in the "**student - company - university**" triangle closer.

Our university used to operate as Robert College, but later it was renamed Bogazici University. Bogazici University is one of the most successful and well-established schools in Turkey. Based on a long-established history, we have been operating as the local group of the BEST organization since 2014 as BEST Istanbul Bogazici.

What are the BEST Courses in Summer?

In **BEST Courses**, our course includes both an academic and social part, the purpose of our course is to bring together students from all over Europe. In the academic part, participants attend lectures given by the university's teaching staff or by experts from companies. At the end of the course, students take an exam, which is designed to evaluate the participants' success. Besides the academic part, we will also have fun together for a week and make unforgettable memories.

About our Course (18 - 25 June 2023)

As the energy problem of the world keeps increasing, a massive transformation towards electric vehicles is occurring. Lots of companies are making huge investments in electric vehicles and it's inevitable that this shift is going to make huge changes in the whole industry and people's behavior.

This course will cover the topic of electric transformation in transportation. You will have the chance to learn thoroughly about the batteries, electric ranges, automation, charging stations, and environmental and financial aspects of electric cars and electric micro-mobility vehicles. You will also have the chance to visit companies in the industry and attend interactive sessions.

Not to mention that you will spend the whole 8 days in Istanbul, which is one of the oldest cities in the world. You will get to live among the deep history and culture of Istanbul, where Europe and Asia meet, and experience one of the most unique memories of your life.

#Prerequisite:

- There are no prerequisites, it is enough just to have an interest in this topic.

#Fee:40€

- Accommodation, 3 meals per day, transportation during the event, etc. will be covered except the travel expenses to Turkey.

#In BEST Courses you have the opportunity to

- Meet students from all around Europe and new cultures.
- Take part in case studies and visit companies, industrial plants, and research centers
- Follow interesting classes covering electrical transportation's technical, economical, behavioral properties
- Receive ECTS credits in recognized courses
- Have lots of fun and memories
- Get to know beautiful Istanbul from the impressive Bosphorus
